

Product Features

- Short-base child protection seat.
- Provides parents with a safe, convenient and hygienic facility in away from home locations in which to restrain their toddler whilst carrying out other important tasks.
- Examples of areas for use are gym/swimming pool changing rooms, toilet cubicles, next to baby changing tables, nurseries etc.
- Compact ultra slim profile.
- the contoured, ergonomically designed seat with raised side barriers ensures kids will stay put, preventing them from falling and injuring themselves.
- Heavy duty integral moulded hinges for strength & safety and large radius internal contours for comfort and safety.
